Training Product Overview	
Code, Full Title and Release	TAS – AHC31021 Certificate III in Parks and Gardens (Release 1) This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 7.0 8.0
Stream	N/A
Awarding RTO and Code	Landscape Skills (LS) Qld Small Business Courses (QSBC) RTO Code 41456
Available Funding Arrangements	<input checked="" type="checkbox"/> User Choice (Apprenticeship) <input type="checkbox"/> Construction Skills Queensland (CSQ) <input checked="" type="checkbox"/> Fee for Service <input checked="" type="checkbox"/> Certificate 3 Guarantee <input type="checkbox"/> Skilling Queenslanders for Work
Restrictions	Queensland Government Contribution may be the same as Full Price, depending on qualification priority and thin market status
Delivery Locations	Online Platform and Workplace Delivery and RTO Training Yard at Strathpine or Logan.
Target Group/Groups	A student that has less than 2 years' work experience, has basic skills in reading, writing, numeracy, communication and working with others, is generally supervised in the tasks they are asked to complete. This Target group could include: Individuals currently employed in the industry Individuals interested in starting a career in Parks and Gardens Individuals returning to the workforce Individuals who completed Certificate II in Horticulture or related field
Qualification Description	This course will give you a broad knowledge of the amenity horticulture industry.
Mode of Delivery	Predominantly the delivery mode is "Workplace-based delivery"
Licensing, legislative and certification considerations	No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Training Product Overview

<p>Program Duration</p>	<p>Estimated Duration: An estimated [1414 Hours] Volume of Learning, depending on electives selected, with an estimated duration of 24 months.</p> <p>Each student will have an initial/pre-enrolment meeting that will allow us to determine the expectations of the student and any opportunity they may have for any recognition of any prior learning or credit transfer. Variables that are unknown when making this estimation include, but are not limited to – progression of self-paced learning, availability of work-based tasks, and/or weather, electives selected etc.</p> <p>Individual Training Plans are created on an individual level in consultation with students and their employers (where applicable). Thus, will consider the wide range of different backgrounds and experiences of students. However, the maximum duration is 36 months based on a full-time student.</p> <p>All apprenticeships have a nominal term - this is the timeframe that is on the apprenticeship training contract. The nominal term for the apprenticeship "Parks and Gardens Tradesperson" is 36 months.</p> <p>The Estimated Duration is the amount of time that it's reasonably expected someone could become competent and complete this qualification. All Training Plans are developed using the Estimated Duration timeframe rather than the contract's nominal term.</p> <p>School-based Apprentice or Trainee' or 'SAT' means an Apprentice or Trainee who is a school student- typically years 11 and 12 - in an approved arrangement that allows them to study for their senior certificate or equivalent, whilst at the same time undertaking government approved and nationally recognized training qualifications as paid employees. The limit for this apprenticeship in a school-based mode is a maximum of 40% of the competencies For this qualification for example, the maximum number of competencies during school-based mode is 3 competencies</p>
<p>Amount of Training and Volume of Learning</p>	<p>Certificate III- 1 – 2 years</p> <p>1200 – 2400 hours</p> <p>We develop and implement strategies for training and assessment that are consistent with the AQF and comply with the AQF in applying the Volume of Learning to your programs.</p> <p>Volume of Learning for this qualification is [1414 Hrs]</p> <p>Each student will have an initial/pre-enrolment meeting that will allow us to determine the expectations of the student and any opportunity they may have for any recognition of any prior learning. At each training session students are provided with:</p> <ul style="list-style-type: none"> ● instruction and coaching ● details of the requirements for practical assessments <p>ASQA require that we give you an estimate of the duration of training. The trainer will conduct sessions at least every 3 months, usually 1 hour per session to meet the student's needs. Training sessions will be in person with the trainer or through an online platform.</p>
<p>Volume of Learning within recommended AQF range</p>	<p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>IF No: Justification: N/A</p>

Training Product Components (Full Qualification)

Packaging Rules	To achieve this qualification, competency must be demonstrated in:					
	<p>16 units of competency: 11 core units plus 5 elective units. Elective units must ensure the integrity of the qualification's Australian Qualification Framework (AQF) alignment and contribute to a valid, industry-supported vocational outcome. The electives are to be chosen as follows:</p> <p>4 must be from the electives listed below 1 from the remaining electives listed below, or any currently endorsed Training Package or accredited course</p>					
	Unit Code	Unit Name	Core/Elective	PRE-Requisites	Co-Requisite	Lic
1	AHCWHS301	Contribute to work health and safety processes	Core	Nil	Nil	Nil
2	AHCPGD310	Implement a landscape maintenance program	Core	Nil	Nil	Nil
3	AHCPCM204	Recognise plants	Elective	Nil	Nil	Nil

	AHCWRK309	Apply environmentally sustainable work practices	Elective	Nil	Nil	Nil

Entry and Resources Requirements

<p>RTO Entry Requirement</p>	<p>There are no formal entry requirements for this qualification. Students undertaking this course will need to complete their training and assessment in a workplace environment or attend LANDSCAPE SKILLS Yard for practical activities where applicable to fulfil the practical requirements of this course.</p> <p>Training Yard Attendance - Student will be required to be inducted (including presenting their White Card) into the Site prior to accessing for training and/or assessment.</p> <p>Otherwise, LANDSCAPE SKILLS may assist in special arrangements where possible. For a traineeship pathway, the student must be employed full-time or part-time and have access to a workplace to be able to gain the sufficient experience to successfully complete the unit of competency requirements.</p>
<p>Course Entry Requirement</p>	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Minimum entry age: [15 Years Old] <input checked="" type="checkbox"/> Direct Entry with basic LLN Skills <input checked="" type="checkbox"/> As a rule, only Australian citizens/ permanent residents and New Zealand citizens who have entered Australia on a valid passport have unrestricted rights to employment in Australia. <p>Visa holders may engage in apprenticeships or traineeships provided their work rights allows this, based on information and advice provided by the Australian Government.</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> Funding Eligibility if applicable
<p>Language, Literacy and Numeracy (LLN)</p>	<p>Students require basic Language, Literacy and Numeracy skills, and these are confirmed as part of the enrolment process. 1.7 of RTO Standards state all RTO's must determine the support needs of the student.: To determine the support needs of individual students' students on enrolment are required to complete a Language Literacy and Numeracy test to determine their level of LLN. In instances where it is identified that there may be a particular issue, appropriate measures will be in place to mitigate the student. In that instance the student will also be referred to a learning centre for additional support and assistance.</p>
<p>Technology Literacy</p>	<p>Students will require basic technical skills to interpret and act on available information. If a student requires support/ training in any of the recommended technical skills, we will arrange further support/training. including</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> creating, saving, and editing documents <input checked="" type="checkbox"/> accessing and searching the internet <input checked="" type="checkbox"/> downloading and saving documents from websites <input checked="" type="checkbox"/> uploading documents through websites <input checked="" type="checkbox"/> participating in online discussions <input checked="" type="checkbox"/> connecting digital devices and downloading and storing images <input checked="" type="checkbox"/> using online video conferencing services.
<p>Equipment Requirements</p>	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Laptop computer/ Tablet/Phone or any suitable equipment to access the online learning platform. <input checked="" type="checkbox"/> Internet Access. <p>If any resources are not available, we arrange for the resources to be provided where possible</p>

Resources Requirements	<p>The training and assessment are predominantly conducted at the student's workplace and the facilities are provided by them. A resource assessment is conducted at induction of the workplace/employer. If any resources are not available, we arrange for the resources to be provided. This can be using our training yard or the hire of equipment. Some of the units will have to be completed at our training yard – refer to the Assessment Conditions and Resources section.</p> <p>Resources include: Learning resources, Physical resources, Assessment resources and Human resources [Refer to separate sections – Human Resources; Assessment Conditions and Resources]</p>
Unique Student Identifier (USI)	<p>From 1 January 2015, participants undertaking nationally recognised training require a USI before they can receive their training records and results. Once a USI is created participants will continue to use their USI for any future nationally recognised training they undertake. Your USI links to an online account that contains all your training records and results that you have completed after 1 January 2015. If you would like to create your own USI prior to commencing training, please visit www.usi.gov.au. Alternatively, with your permission (which can be provided when completing your enrolment) or Landscape Skills will create your USI number on your behalf or will access/verify your current USI.</p>

Pathways & Outcomes

Pathways into qualification	<p><input checked="" type="checkbox"/> Completion of any certificate I & II qualification.</p> <p><input checked="" type="checkbox"/> Currently employed on full-time or part-time basis in the horticulture industry and/or viticulture Industry</p> <p><input checked="" type="checkbox"/> School Based Apprenticeships</p>
Pathways and Vocational Outcomes	<p>The following employment pathways are available to students who complete this qualification:</p> <p>On successful completion of this course, participants will be issued an 'AHC31016 Certificate III in Parks and Gardens' certifying competence of the 16 units completed.</p> <p>Vocational outcomes:</p> <ul style="list-style-type: none"> ● Parks and Gardens Worker ● Parks and gardens tradesperson ● GARDENERS ● Horticulturist

Course Structure and Estimated Duration

Structure and Order of Delivery	The sequence of delivery below is a “suggested” order. This order will be dependent on the workplace/type of work available/resources/electives chosen. The order will be negotiated with the student and the employer (if applicable) throughout the course and is subject to change. The variables out of our control which may affect delivery order, include but are not limited to – weather, scope of works available at any time.						
Unit Code	Unit Name	Core / Elective	Suggested delivery order	Estimated Training Hours (Employer/ RTO)	Estimated Self-Paced Learning and Assessment Activities Hours	Estimated Assessments Duration (RTO) Hours	Total Hours
AHCWHS301	Contribute to work health and safety processes	Core	1	60	25	3	88
AHCPGD310	Implement a landscape maintenance program	Core	1	80	18	3	101
AHCPMG204	Recognise plants	Elective	1	60	40	3	103
AHCSOL304	Implement soil improvements for garden and turf areas	Core	1	80	20	3	103
AHCPMG301	Control weeds	Core	2	60	24	3	87
AHCCHM304	Transport and store chemicals	Elective	2	40	25	3	68
AHCCHM307	Prepare and apply chemicals to control pest, weeds and diseases	Elective	2	40	25	3	68
AHCPGD311	Conduct operational inspection of park facilities	Elective	4	40	25	3	68
AHCPMG305	Implement a plant nutrition program	Elective	3	40	25	3	68
AHCPMG306	Provide information on plants and their culture	Core	3	40	25	3	68
AHCPMG302	Control plant pests, diseases and disorders	Core	2	40	40	3	83

AHCTRF309	Implement a grassed area maintenance program	Core	4	60	20	5	885
AHCPGD309	Perform specialist amenity pruning	Core	3	80	30	3	113
TOTAL							1414
Other Electives							

AHCSOL305	Prepare growing media	Elective	1	80	30	3	113
AHCWRK309	Apply environmentally sustainable work practices	Elective	2	40	20	3	63
TOTAL							176

The volume of learning of 1414 hrs is based on the units of competency listed; however, it might vary whenever other electives are chosen.

Recognition Processes

Credit Transfer	<p>To apply for Credit Transfer</p> <p>The applicant needs to provide a USI transcript and/or original statement of attainment or qualification with record of results. We will verify these documents and may contact previous training provider to authenticate the documents before determining if you are eligible for credit transfer. If you have prior qualifications in another name, you will need to provide evidence of a name change please. Credit transfer will only be granted for whole units of competence. If approved for credit transfer, the credit transfers will be awarded and applied to your course. You can view this in your portal and in your live training plan.</p> <p>If we are unable to verify your prior results, we will be unable to apply a credit transfer to those units and if funded, the funding source will not pay for those units to be re-trained and/or assessed.</p>
Recognition of Prior Learning (RPL)	<p>LANDSCAPE SKILLS recognises that the student may have skills or knowledge from previous learning or work experience, you may be eligible to apply for Recognition of Prior Learning and/or Credit Transfer towards partial completion of this qualification.</p> <p>The competencies in this qualification may be attained through the process of Recognition of Prior Learning (RPL). RPL takes into consideration the student's previous training, work, and life experience</p> <p>To apply for RPL the student will need to:</p> <ul style="list-style-type: none"> • Request RPL within the enrolment form • Provide required evidence for selected units of competency by using the RPL tools we provide. • Consultation and interview with a trainer and assessor to identify eligibility and provide guidance • Verbal questioning is used to investigate understanding of concepts, standard procedures, and minimum safety requirements for the course. • Be prepared to demonstrate practical ability-challenge tests • Provide previous employer verification <p>The student must provide adequate evidence to demonstrate prior experience in, the knowledge and performance evidence and each of the performance criteria listed in the unit of competency. Evidence might be related to</p> <ul style="list-style-type: none"> • work samples and documents (such as invoices, quotations, plans, sketches etc) • Previous employer letters • photos and videos of your work • related qualifications, statements of attainment, USi Transcript <p>If a student is granted RPL, it will reduce the estimated course duration. There will not be any hours for training or learning for the units of competency that are being awarded RPL. Approximately an hour per unit should be allowed to complete the RPL tools and then the RTO Assessment hours for each unit as per the Estimated Duration table. This will vary depending on the number of units being applied for as RPL.</p>

Evidence Gathering and Recording Techniques

Evidence Gathering	<p>The evidence gathering process will reflect specific requirements for units within the training package, as well as the need to provide evidence of Employability Skills which are integrated into all units. Evidence collected may include combination of knowledge, skills observation and employer reports. Students are also expected to update their Workplace Activities sometimes referred to as WARs on a regular basis.</p> <p>All assessments will follow the Rules of Evidence and will be: - Current – the student has demonstrated the required skills and knowledge in a current context (within the last 2 years). - Sufficient – relates to the quality and quantity of assessment (e.g., Student may need perform required skills or more than one occasion to be deemed competent) - Authentic – the evidence gathered confirms it is the students own work. Valid – the assessment was appropriate to capture the student’s skills and knowledge.</p> <p>Evidence types: Evidence might be gathered in form of photos, videos, workplace activity record, assessor questioning, assessor observation and written evidence.</p>
Progress Monitoring	<p>Progress and monitoring sessions are scheduled to ensure sufficient time is allowed to address the students’ questions regarding each unit, to provide time to assist students with learning activities, time to review the training plan, discuss any additional support, resources etc. required by the student and workplace supervisor.</p> <p>In particular for an apprentice or trainee, a site visit will be conducted (in person or over video) at least every three (3) months.</p>

Assessments Systems

Assessment Techniques	<p>The assessment techniques are:</p> <ul style="list-style-type: none"> • Formative Assessment • Summative Assessment • Supplementary
Assessment Resources	<p>All staff involved in the delivery and assessment of this qualification have:</p> <ul style="list-style-type: none"> ➢ Direct access to the current version of the units of competency, assessment requirements, relevant Training Package and companion volumes. ➢ Access to appropriate support materials relevant to their areas of delivery and assessment ➢ Access to training and assessment resources to meet the requirements of students with special needs including procedures for making reasonable adjustments to the assessment process ➢ Access to equipment and facilities to meet the requirements of each unit of competency and successfully implement the program (further information provided below). <p>[See separate sections for Assessment Conditions and Resources]</p>
Reasonable Adjustment	<p>Reasonable adjustments can be made to the learning environment, training delivery, learning resources and/or assessment tasks to accommodate the support needs of a student with disability. The purpose of reasonable adjustments is to make it possible for students to participate fully. It is not to give students with additional or different needs an advantage over others, to change course standards or outcomes, or to guarantee success.</p> <p>A reasonable adjustment in learning and assessment activity needs to be justifiable and uphold the integrity of the unit/qualification. Reasonable adjustments should be negotiated on an individualised basis, recognizing that each person with disability will have specific learning needs and requirements for adjustment. Adjustments are not required if they could: cause LANDSCAPE SKILLS unjustifiable hardship and/or harm other students.</p> <p>Examples of reasonable</p> <ul style="list-style-type: none"> • modification to presentation mediums and techniques or teaching practices • course materials, information and learning tasks in alternative formats • alternative assessment formats, timeframes, or tasks • availability of assistive technologies or specialised equipment • allowing a carer or support person to be present in the learning environment
Assessment Timing	<p>The timing of the assessment will differ for each student and for each unit. Each unit will provide a maximum timeframe required for the practical assessments. Generally once all workplace training related to a unit of competency is completed, the online assessments can be completed. The practical assessment will be completed after both the workplace training and online assessments are completed.</p> <p>To ensure a flexible approach and to meet real workplace expectations and demands LANDSCAPE SKILLS will provide the student access to all training resources and assessment tools however, it is recommended that the student completes any self-study during the training period and commence the practical assessment only after the training for the specific skills in the unit of competency is completed.</p> <p>The trainer and assessor will contact each student to discuss their progress and inform them when assessments will be conducted.</p>
Assessment Validation	<p>LANDSCAPE SKILLS undertakes systematic validation that includes each training product on the scope of registration as per the requirements of clauses 1.9-1.11 of RTO Standards</p>
Assessments Feedback	<p>Feedback and input from students and other stakeholders are sought, analysed and acted upon, where necessary, on a regular basis. Information gained forms part of any review of materials and in the validation and moderation processes. Trainers, employers, and students are also welcomed to give feedback at any time during their training and assessment with us. At the completion of a unit of competency and/or qualification/assessment all students are given the opportunity to complete a survey</p>

Educational and Support Services

Support, Welfare and Guidance	<p>LANDSCAPE SKILLS will ensure all students receive appropriate welfare and guidance throughout their program. This includes, learning pathways, possible RPL opportunities, provision for special needs and provision for special cultural and religious needs (where applicable). Such support will be provided by locating support through community services such as special needs services, welfare services, counselling, advisory bodies and government departments.</p> <p>Students are provided with learning resources and access to trainers to provide them with any needed academic support.</p> <p>Refer to Reasonable adjustment section</p>
-------------------------------	--

Transition Arrangements

The CEO subscribes to training.gov.au together with ASQA and Training.gov.au, Industry Skills Associations along with other associations. This provides information on any changes upcoming and made on any training products.

When there is a change to the Training Package that impacts on this TAS, the CEO will notify all staff affected as soon as possible.

LANDSCAPE SKILLS complies with clauses 1.26 & 1.27 of RTO Standards. When there are major changes to the Training Package, the CEO and management team will review the changes made and create a plan to transition to the new training package requirements and cater for completion arrangements for students where possible. The progress of the transition will be monitored by LANDSCAPE SKILLS Manager and the management team.

Transition arrangements must be completed within 12 months of changes being published on training.gov.au for superseded qualifications and two years for deleted training products (except Skill Sets and units of competency which are 12 months).

Continuous Improvement

Trainer and Assessor Feedback	Feedback and input from Trainers are sought, analysed and acted upon, where necessary, on a regular basis. Information gained forms part of any review of materials and in the validation and moderation processes. Feedback can be gathered formally and/or informally
Students Feedback	Feedback and input from students are sought, analysed and acted upon, where necessary, on a regular basis. Information gained forms part of any review of materials and in the validation and moderation processes. Feedback can be gathered formally and/or informally.
Employers Feedback	Employer's feedback is gathered during three stages Prior to TAS implementation After completion Feedback may be gathered formally and/or informally
Course Review	Stakeholder consultations occur on an ongoing basis throughout the year. Evidence of industry consultations and resulting actions is documented. Ongoing consultations with stakeholders assist in evaluating the course and identifying opportunities for improvement.

Consultation

Industry Consultation	Consultation with industry is conducted on a regular basis. The consultation contributes to LANDSCAPE SKILLS Training and Assessment Strategies and provides an insight as to what the industry requires for their training needs. LANDSCAPE SKILLS maintains an Industry Consultation Register.
Consultation for Development of TAS	Industry representatives consulted during the development and review of the training and assessment strategy for this qualification are recorded in LANDSCAPE SKILLS's Industry Consultation Register

Assessment Conditions and Resources

Learning and assessment is conducted in a work-related environment that leads to verifiable workplace outcomes. LANDSCAPE SKILLS is responsible for ensuring honest, valid, and reliable assessment is conducted throughout all programs. This includes ensuring all students are assessed against the critical aspects of assessment which apply to every unit of competency within the program.

Mandatory conditions for assessment of this Qualification are stipulated below. With additional specific requirements for each unit listed in the table below

The assessment must: include access to:

- personal protective equipment
- relevant documentation
- be conducted in a safe environment; and,
- be assessed in the context of this sector's work environment; and,
- be assessed in compliance with relevant legislation/regulation and using policies, procedures and processes directly related to the industry sector for which it is being assessed; and, confirm consistent performance can be applied in a range of relevant workplace circumstances.

Unit Code	Unit Name	Assessment Conditions and Resources
AHCWHS301	Contribute to work health and safety processes	Internal policies and procedures, risk assessments, access to legislation and websites, access to work area with others working in it, a range of PPE and safety equipment
AHCPGD310	Implement a landscape maintenance program	<p>physical conditions: a workplace setting or an environment that accurately represent workplace conditions</p> <p>resources, equipment, and materials: workplace procedures applicable to implementing a landscape maintenance program site inspection checklist soft and hard landscape materials, tools, and equipment applicable to implementing a landscape maintenance program</p> <p>specifications: workplace requirements applicable to health and safety in the workplace for implementing a landscape maintenance program landscape maintenance program and standards</p> <p>timeframes: according to job requirements.</p>

Trainer and Assessor Requirements

LANDSCAPE SKILLS ensures all trainers and assessors comply with the requirements of clauses 1.1 – 1.16 of RTO Standards. Individual staff profiles are maintained at the unit of competency level for each trainer and assessor. Assessors must be able to clearly demonstrate current and relevant industry knowledge and experience to satisfy the mandatory regulatory standards as set out in the RTO Standards/Australian Quality Training Framework mandatory requirements for assessors' current at the time of assessment and any relevant licensing and certification requirements. This includes:

- vocational competencies at least to the level being delivered and assessed
- current industry skills directly relevant to the training and assessment being provided
- current knowledge and skills in vocational training and learning that informs their training and assessment
- formal relevant qualifications in training and assessment
- having knowledge of and/or experience using the latest techniques and processes

Staff Profiles are annually reviewed to ensure compliance with RTO Standards

Supporting Rationale

Certificate III qualifications are often the basis for trade outcomes and undertaken as part of a traineeship or apprenticeship. In some cases, up to three years may be required to achieve the learning outcomes.

RTO Standards: These Standards are the Standards for Registered Training Organisations 2015. These Standards form part of the VET Quality Framework, a system which ensures the integrity of nationally recognised qualifications.

Standard 1. The RTO's training and assessment strategies and practices are responsive to industry and learner needs and meet the requirements of training packages and VET accredited courses.

Recognition of Prior Learning (RPL)

means an assessment process that assesses the competency/s of an individual that may have been acquired through formal, non-formal and informal learning to determine the extent to which that individual meets the requirements specified in the training package or VET accredited courses. Formal learning refers to learning that takes place through a structured program of instruction and is linked to the attainment of an AQF qualification or statement of attainment (for example, a certificate, diploma or university degree);

non-formal learning refers to learning that takes place through a structured program of instruction, but does not lead to the attainment of an AQF qualification or statement of attainment (for example, in-house professional development programs conducted by a business); and

informal learning refers to learning that results through experience of work-related, social, family, hobby or leisure activities (for example the acquisition of interpersonal skills developed through several years as a sales representative).

The Australian Qualifications Framework (AQF) means the framework for regulated qualifications in the Australian education and training system, as agreed by the Commonwealth, State and Territory ministerial council with responsibility for higher education. Provides a guide to the volume of learning (see 'AQF volume of learning indicators' table), which describes how long a student who does not hold any of the competencies identified in the relevant units of competency or modules would take to develop all the required skills and knowledge.

<https://www.aqf.edu.au/sites/aqf/files/volume-of-learning-explanation-v2-2014.pdf>

The volume of learning is a dimension of the complexity of a qualification. It is used with the level criteria and qualification type descriptor to determine the depth and breadth of the learning outcomes of a qualification. The volume of learning identifies the notional duration of all activities required for the achievement of the learning outcomes specified for a particular AQF qualification type. It is expressed in equivalent full-time years.

Estimated Duration

From RTO Standards:

- a) the training and assessment, and related educational and support services the RTO will provide to the student including the:
- i) estimated duration;
 - ii) expected locations at which it will be provided;
 - iii) expected modes of delivery;
 - iv) name and contact details of any third party that will provide training and/or assessment, and related educational and support services to the student on the RTO's behalf; and
 - v) any work placement arrangements.

Definition: estimate

verb

past tense: estimated; past participle: estimated

"Roughly calculate or judge the value, number, quantity, or extent of"

When trying to best estimate duration of training, we have had to consider different variables and these are referred to in the Estimated Duration Table.

The Estimated Duration table, does not include formative assessment hours. These are in addition to the Volume of Learning. The time required to complete assessments can differ greatly from student to student as recorded in Assessment Timing.

Credit transfer is defined in the AQF as follows: Credit transfer is a process that provides students with agreed and consistent credit outcomes for components of a qualification based on identified equivalence in content and learning outcomes between matched qualifications. This is underpinned by the AQF definition of credit as follows: Credit is the value assigned for the recognition of equivalence in content and learning outcomes between different types of learning and/or qualifications. Credit reduces the amount of learning required to achieve a qualification and may be through credit transfer, articulation, recognition of prior learning or advanced standing
